## 4. How to place an Order:

### 1. How to Measure your Kitchen:

#### HOW TO MEASURE YOUR KITCHEN

##### STEP 1

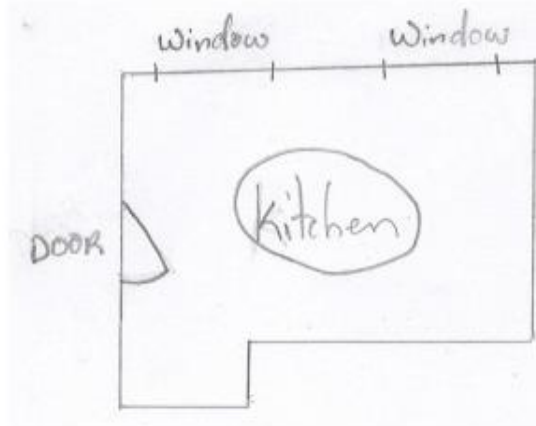

Make a rough sketch of your room, large enough to fit all the measurements and notes.

For door ways, draw the door way according to which way the door swings.

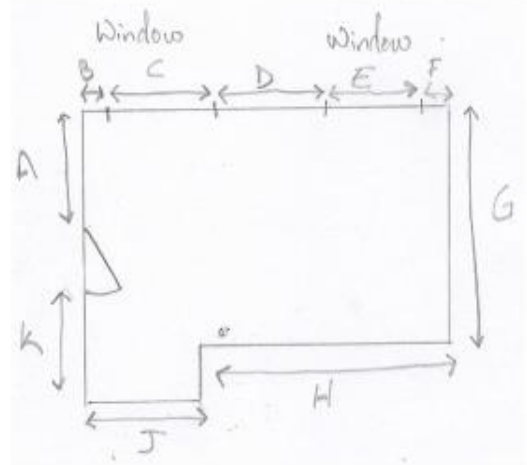

##### STEP 2

Sketch any obstructions, for instance; pipes, sink, plumbing, columns etc that you either cannot move or do not want to move.

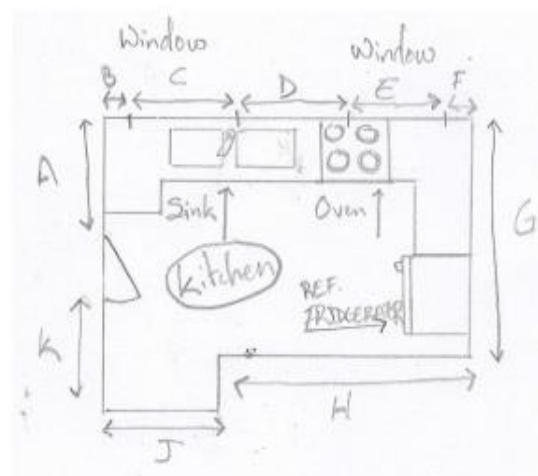

##### STEP 3

Start in one corner and measure around the room along each until every wall, window & door has been measured..

##### STEP 4

Draw the location of all appliances and write the sizes in inches.

## 5. Colours and Boards Available:

### Opening Line

At Elevate Business Services we use the highest quality Laminated Particle Boards (PB) and Medium Density Fiber Boards (MDF) both being Moisture Resistant. We import our boards from various suppliers who meets the highest standards within the industry.

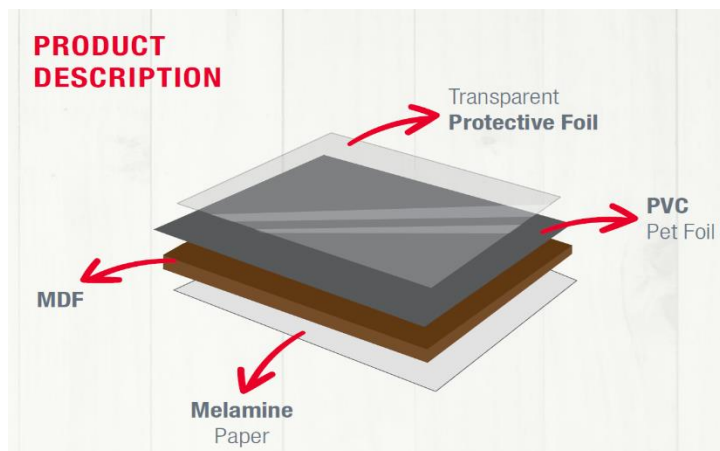

### **Particle Boards are:**

A manufactured wood/board made of very small pieces of wood bonded together with glue and other resins at high temperatures. It is a high density, strongly bonded, economical and general-purpose board made of large wood particles in the core and finer particles on sanded surfaces.

### **Medium Density Fiber Boards (MDF) are:**

Medium-density fibreboard (MDF) is an engineered wood product made by breaking down hardwood or softwood residuals into wood fibre, often in a defibrator, combining it with wax and a resin binder, and forming it into panels by applying high temperature and pressure.

Basic Composition of a PVC MDF Panel:

Type of Finishes we offer:

1.

## Ultra High Gloss

UHG is made by laminating a very durable decorative foil on a refined calibrated and one-sided melamine coated MDF. The printed film is ideally suited for lamination of MDF.

Thanks to the wide color range and exciting variety of decors and contrasts, UHG meets different design requirements in interior furniture .

The homogeneous MDF material as a carrier material contributes positively to the properties of the high gloss surface and is a cost-effective solution for your premium ideas. Without taking protective measures like painting or any time – consuming preparatory work, UHG boards are ready for use and easy to process: simply cut, edge and use.

2.

## Super Matte

Super Matte is the latest product release from Gizir, showing their end-less pursuit to offer products in line with newest trends in the market. It is processed using a state of the art PUR line in a clean room environment. It is laid up on a refined and calibrated MDF core to ensure a smooth surface.

The “soft touch” is silky smooth to the touch. It gives the material a warm and velvety feeling. The muted colors convey an unobtrusive and high-quality sense of space.

Super Matte by Gizir offers a very durable panel at one of the best price points in the matte finish arena.

3.

## Matte

Have you ever touched an oil canvas? Have you run your fingers up the tree, enjoying its shadow? What have you felt ? Let's relive this feelings with our matte MDF panels.

Matte panels are manufactured by application of matte foil to the refined and calibrated MDF.

The Smooth and textured surface design creates a warm, cozy ambience. In our color range, we strive to be as close to the natural look as possible. Matte colors are optically and haptically veneer like, in close association with stone or leather but with a price advantage.

Authenticity is our product's unique feature.

Applying these expressive and sensual surfaces will create impressive living spaces and furniture.

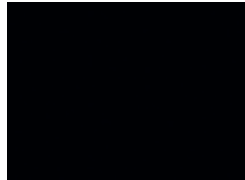

This product finds perfect fit in the kitchens, bathrooms, living rooms, bedrooms, hotel furniture.

The edge bands are perfectly matched in color and texture to the panel decors, as a finishing touch for the perfectly designed product.

## 11. Accessories/Pull-Outs:

### Spice Rack Pullout with Soft Close (DBPO-8SC)

#### Description

Maximize your cabinet storage with our Spice Rack pullout with reduced height designed to fit under a drawer in a standard height base cabinet with a 9" opening width. The pullouts feature premium Soft-close undermount slides top-mounting bracket with heavy-duty slide. Eliminates side-to-side movement and sag commonly seen in other pullouts.

#### Product Dimensions

W – 8.5"

H – 20"

D – 22"

Weight Capacity – 100lbs

# of Shelves – 3

Material – White Birch

Mounting: Both stand alone and Door Mountable.

### Trashcan Pullout Soft Close (CAN-EBMSPC-R)

#### Description

Save room on the kitchen floor by tucking away trash cans in a cabinet with our single can polished chrome wire trashcan pullout. Slides out on 100 lb. rated full-extension slides. Comes with a wire handle for hinged door applications. Works with either 50 qt can or 35 qt can. Trash can and lids are sold separately as well as an optional door-mounting kit. Pullout fits in a 12" cabinet opening.

**Door Mounting Kit (Can-Door KitPC)**

**Waste Basket 35 Quart (Can-35W)**

#### Product Dimensions

W – 10.5"

H – 13"

D – 22-1/16"

Weight Capacity – 50lbs

# of Shelves – N/A

Material – Heavy Gauge Wire

Mounting: Both stand alone and Door Mountable.

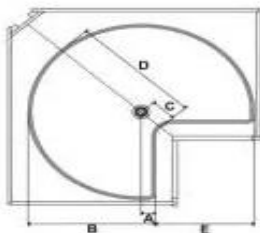

Other Accessory – Tash Can sold separately.

**Lazy Susan Kidney – 28" (w/two Shelves) (PLSMK28)**

**Description**

Optimize corner cabinets with a 28" kidney lazy Susan set. Sturdy polymer plastic trays with robust rib construction make for a secure shelf. Chrome metal hubs add a stylish accent. Telescoping pole locks in place at your desired height. Each shelf is independently rotating, and hubs have a positive stop, so cutout stops at the door opening. Each unit is tested to exceed BHMA Class-1 specifications of 20 pounds per square foot for 75,000 cycles. Set includes two shelves, chrome pole and hubs.

**Plastic Lazy Susans with Chrome Metal Hubs**
